

Don't Need Money To Play Guitar Written By Matthew Aylett 03.06.2013

E
I've been working all week but my pockets are empty the bank have taken all that i need
A E
I've been a little to much been a little to free i try and change the channels on my broken tv

E
telephone rings i just wait for the silence echoes through the place like a ghost needing guidance
A E
need a bite to eat never needed no diamonds i can hear the city lighting up with the sirens

E B D A C G B
so alone with the weight of this load gonna sit and drift for miles

A E A E
the girls they dress up nice like the stars of a saturday night
A B
check there reflection in there rides

E
sit and watch the smoke curl round the light i hear the rattle of the strings ring through the night
A E
i stare into the picture frame at her side but those days are washed away with the time

E B D A C G B A
so alone with the weight of this load gonna sit and drift for miles oh and miles

E
you don't need money to play guitar now
A
don't need no honey to see me right now
E
like some kind of holy realisation
A
its right here i've got my salvation
E
you don't need money to play guitar

so alone with the weight of this load gonna sit and drift for miles oh and miles

F#
i would walk so fast i would find myself running
