

# ‘UNEXPECTED BLUES’

B DB C A EX2

E

We were dragging across landscape  
That we did not recognise.

E

The fractured, shifting horizon confusion in our eyes

A

Looking for any clue, any indication or sign

E

BCAE

Pointing the way to peace and peace of mind

E

Could not see a thing - not the merest hint

Maybe a turning a little way back I only caught a glimpse

A

This way holds no promise

And we are turning sad and sour

E

Not a soul will know – who would even care

E

On this journey to nowhere we could simply fade away  
We will leave no story - no legacy

A

Nothing to be remembered for except what others see

E

Two broken people cocooned in misery

## Solo blues in E

E

When we started out, the future looked bright  
Thought we might last until we realised

E

Time to make our own ways out of this crazy dream

E

It's not we expected, it's not what we need  
Got to make our own sweet ways out of this crazy dream

A

All that we experienced in the end was no use

B

Only thing left is this
